BILLINGS TO GREAT FALLS.

Burlington Will Construct a 235-Mile Extension in Montana Right Away.

GUTHRIE GETS THE CONTRACT

Salt Lake Men Are Now Scrambling to Get in on the Ground Floor.

The Burlington has awarded the contract of building 235 miles of new road in Montana to Guthrie & Co. of St. Paul, Minn.

This anouncement was made in Salt Lake yesterday and on the strength of it several contractors residing here last night wrote to Guthrie & Co. asking for further particulars with the object in view of securing sub-contracts.

The contract was let, it is affirmed, on Wednesday of this week. It is a big proposition and part of the scheme for the invasion of the northwest. The road is to be extended from Bill-

ings, the present western terminus of the C. B. & Q., on to Great Falls, Mont., where are located big smelters of the Anaconda company. En route the Burlington will tap the

SAVED BABY

Untold Suffering and Constant Misery-Awful Sight From that Dreadful Complaint, Infantile Eczema - Commenced at Top of his Head and Covered Entire Body.

MOTHER PRAISES CUTICURA REMEDIES

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery, in fact, there was nothing we would not have done to have given him relief. The family doctor seemed to be wholly incapable of coping with the case, and after various experiments of his, which resulted in no benefit to the child, we sent to Mazon, Ill., to a druggist and got a full set of the Cuticura Remedies and applied as per directions, and he began improve immediately, and in about three or four days began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered, with the exception of a rough skin, which is

gradually disappearing, and eventually will be replaced by a healthy one.

"Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was prior to the treatment of the Cuticura Remedies. Mrs. Brooks had been to the pains of Mrs. Brooks had been to the pains of securing a long interview with State Chemist Harms, and gained from him such information that her paper was of specially practical value and moreover, she had a long array of adulterated food samples—beautiful looking specimens, but very poisonous; and the way the fair lecturer' showed them up was highly entertaining to her large was highly entertaining to her large

BUTTER AND CHEESE.

She first quoted Chief Chemist Wiley of the department of agriculture as saying that oleomargarine, when properly and hygienically prepared, is wholesome and superior to the ordinary dairy butter; while, renovated butter, much of which has found its way to the Utah market, is the unsold butter left on the markets, and usually contains the dirt of a whole season's infiltration. It is melted, strained, moided, then carefully wrapped in wax paper, and labelled "Pure Creamery Butter." Adulterations of dairy butter are cottonseed and cocoanut oils; while coal tar preparations are largely used for coloring. These are so poisonous that a tablespoonful given to a full grown cat caused its death within two hours.
